2. Basis for the preparation of the interim condensed financial statements

These interim condensed financial statements as of 30 June 2021 have been prepared in accordance with IAS 34 "Interim Financial Reporting". They do not include all of the information and disclosures required in annual financial statements, and should be read in conjunction with the annual financial statements of the Company for the year ended 31 December 2020, which have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and approved by the European Union (EU).

The interim condensed financial statements are presented in Bulgarian leva (BGN), which is also the functional currency of the Company. All amounts are presented in thousand Bulgarian leva (BGN'000) unless otherwise stated.

The Company also prepares interim condensed consolidated financial statements in accordance with International Financial Reporting Standards (IFRS) developed and published by the International Accounting Standards Board (IASB) and approved by EU. Investments in subsidiaries are accounted for and disclosed in accordance with IFR 10 "Consolidated Financial Statements".

The interim condensed financial statements are prepared under the going concern principle.

3. Accounting policies

These interim condensed financial statements (the interim financial statements) have been prepared in accordance with the accounting policies adopted in the last annual financial statements for the year ended 31 December 2020.

4. Accounting estimates

For the purposes of preparing these interim condensed financial statements, the Company's management has applied accounting estimates and assumptions in valuing its assets, liabilities, income and expenses.

Actual results may differ from management's assumptions, estimates and assumptions and, in rare cases, are consistent with previously estimated results.

In preparing the presented interim condensed financial statements, the significant judgments of management in applying the Company's accounting policies and the main sources of uncertainty of accounting estimates do not differ from those disclosed in the annual financial statements of the Company as of December 31, 2020, except changes in the estimate of income tax liability.

5. New standards, amendments and interpretations to existing standards that are effective for annual periods beginning on or after 1 January 2021

The Company has considered the following new standards, amendments and considerations to IFRS, developed and published by the International Accounting Standards Board, which are required to apply from the annual period beginning on January 1, 2021, but has no effect of application on the financial result and financial condition of the Company:

• IFRS 17 "Insurance Contracts" effective from 1 January 2021, not yet adopted by the EU

6. Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Company

At the date of authorisation of these financial statements, certain new standards, amendments and interpretations to existing standards have been issued, but are not effective or adopted by the EU for the financial year beginning on 1 January 2019 and have not been applied early by the Company. They are not expected to have a material impact on the Company's financial statements. Management anticipates that all relevant pronouncements will be adopted in the Company's accounting policies for the first period beginning after the effective date of the pronouncement.

A list of the changes in the standards is provided below:

- IFRS 16 Leases Covid-19-Related Rent Concessions, effective from 1 June 2020, not adopted by the EU
- IAS 1 Presentation of financial statements: Classification of Liabilities as Current or Non-Current, effective from 1 January 2023, not adopted by the EU
- Annual Improvements to IFRS Standards 2018–2020, effective from 1 January 2022, not adopted by the EU
- IAS 16 Property, Plant and Equipment Proceeds before Intended Use, effective from 1 January 2022, not adopted by the EU
- IAS 37 Provisions, Contingent Liabilities and Contingent Assets: Onerous Contracts Cost of Fulfilling a Contract, effective from 1 January 2022, not adopted by the EU
- IFRS 14 "Regulatory deferral accounts" effective from 1 January 2016, not adopted by the EU

7. Significant events and transactions

During the reporting period for the activity of the Company the influence of the spread of a new coronavirus (Covid-19) continues to be felt.

In Bulgaria, the effects of this virus began to manifest themselves from the beginning of March 2020, and on March 13, 2020 the National Assembly decided to declare a state of emergency for a period of one month. On March 24, 2020, the Parliament adopted the Law on Measures and Actions during the State of Emergency, announced by a decision of the National Assembly of March 13, 2020, and on overcoming the consequences (Title, SG No. 44 of 2020, effective 14.05.2020) ". Subsequently, the state of emergency was extended for another month and remained in force until 13 May 2020.

After that date, on 13 May 2020, the Council of Ministers declared an emergency epidemic situation, as of 14 May 2020, which was extended periodically before its expiration. As of the date of preparation of these financial statements, the term of the emergency epidemic situation is extended by the Government until August 31, 2021.

As the company operates through its investments in various sectors of the economy, supply chain disruptions, disruptions in transport flows and quarantine measures have a direct impact on some sectors such as air transport, the impact of the pandemic is reflected in the effect on investment and the volatility in the prices of the financial instruments that the Company owns.

During the second quarter of 2021, as well as at the date of preparation of these financial statements, travel restrictions, quarantine measures and other adverse conditions are in force. Businesses need to deal with challenges related to reduced revenues and disrupted supply

chains. With the development of the second and third waves of the pandemic and the slow process of vaccination and extension of measures in the EU countries (including Bulgaria) in the second quarter of 2021, there are objective obstacles to the activities of companies in individual economic sectors and a large dose uncertainty about when revenues and normal operations will be restored.

Throughout 2020, as well as within the second quarter of 2021, there was a high degree of uncertainty in assessing the impact of the coronavirus pandemic on the macroeconomic development of individual economies. Estimates ranged from catastrophic declines to near-forecast levels. Individual countries, depending on their approaches to dealing with the pandemic and the introduced closures ("lockdowns"), registered different elasticity of change of the individual macroeconomic indicators compared to the baseline forecasts made since the beginning of the year. Also of great importance were the support measures introduced in the various countries, which sought to largely support the income of employees in closed companies and to prevent rising unemployment and a collapse in consumption. To the extent that these measures varied in intensity, volume and success from country to country, the effect was different in terms of macroeconomic parameters.

In this situation, various governments, including the Bulgarian one, have announced measures to provide both direct financial and non-financial assistance to the affected sectors and business organizations. In a similar way, the various regulators - ECB, EBA, BNB - supported and stimulated the economy and the economic entities.

In connection with the continuing global pandemic of Covid-19, with a Decision of the Council of Ministers № 72 of 26.01.2021, the term of the emergency epidemic situation in Bulgaria was extended until August 31, 2021.

In view of the actions taken by various governments, incl. Bulgarian, dynamic measures to restrict some businesses and the resulting changes that directly affect the development of economic sectors of the Republic of Bulgaria, EU countries and other trading partners of companies in the country, the Company's Management is not able to assess the ongoing impact of the Covid-19 pandemic on the future financial condition and results of the Company's operations, including the Company's investments in the air transport sector but considers that the impact could lead to volatility of market and price risk associated with the financial and other assets of the Company and may have a negative effect on the results of the Company's activities and its investments. Management's expectations are that the negative effects will subside after the restrictions on the movement of people, vehicles and goods are lifted, and economic activity is expected to be positively affected by the announced support measures and the allocated additional state and European funds, leading to additional public guarantees. receivables portfolios, additional interest-free financing of economic operators and direct aids for the affected companies and individuals. As these measures are supplemented and expanded on a daily basis, the Management of the Company is not able to assess the final effect on the economic activity, which also depends on the currently unknown duration of the introduced quarantine restrictions.

The impact of the coronavirus pandemic on the financial condition and results of the Company's activities in the second quarter of 2021 is unfavorable, given the continuing pandemic situation and the affected aviation business;

• Increase in the net profit for the quarter in the amount of BGN 5 660 thousand and decrease compared to the comparative period by BGN 6 029 thousand

Overall, the impact had a negative effect on the Company's operations, however, the Group continues to assist in expanding its operations and supporting the businesses in which it participates. The measures taken by the Company and the Group as a whole are focused on the restructuring of loans and receivables.

As a result of the measures taken, the Company as a whole is in a strong position and has sufficient capital and liquidity to service its operating activities and debts.

As of the date of the report, the Company has not taken advantage of the measures provided by the state to overcome the consequences of COVID -19.
